

Education

Year	Qualification	Institute
2015-19	Bachelor of Technology in Computer Science and Engineering	Indian Institute of Technology Guwahati (IITG)

Work Experience

- **Software Development Engineer** | *Amazon* Apr'22
 - Designed and developed a **highly available API (SLA of 99.95%) and low latency (p99 of 50 ms)** that enhances the playback experience for millions of Prime Video customers by providing personalized playback assets and features.
 - Designed and developed a highly available API (SLA of 99.95%), which enforces device restrictions for content consumption based on the subscription plan.
 - Exhibited leadership in operational excellence by implementing circuit breakers, conducting performance benchmarking, and optimizing capacity planning, resulting in improved service availability and cost savings.
 - Implemented robust chaos testing techniques, improving the system's resilience and ability to handle real-world failures and outages, enhancing overall reliability and customer experience.
 - Contributed to the development of innovative load testing tools, enabling more realistic and effective testing in staging environments, resulting in improved system reliability and performance.
 - Spearheaded the implementation of a ranking algorithm which ranks videos on prime video, navigating intricate stakeholder dynamics and driving consensus among cross-functional teams through effective communication and coordination.
 - Played a key role in integrating two critical software systems, leading the end-to-end process from design and implementation to launch and scaling across multiple teams, demonstrating strong project management and technical expertise.
 - **Tech Stack:** Java, Kotlin SQL, Amazon Web Services (AWS), Docker
- **Software Development Engineer** | *Carousell Group* Oct'21-Mar'22
 - Building features for team verticals (Cars and property buy & sell) in carousell with millions of customers in southeast asia region.
 - **Tech Stack:** Golang, PostgreSQL, Grpc, kubernetes, Docker, Django.
- **Software Engineer - Fullstack** | *Works Applications, Singapore* Oct'19-Oct'21
 - Key responsibilities includes understanding the features & requirements, designing, developing & delivering them on time, deploying & maintaining the product.
 - Adapted **Agile** approach & test driven methodology to develop Supply Chain Management ERP products, with **global exposure** collaborating with teams in Japan, India and shanghai.
 - Converted old JavaScript customer-facing web app to Angular, reducing page loading time multi-folds from around **35 seconds to 5 seconds**.
 - **Fixed production issues** of existing RESTful APIs, and solved Out of Memory(**OOM**) issues in many sub-products.
 - **Internship mentor:** Mentored an intern to design and develop a RESTful API which are used internally to get real-time status of data aggregation batch job.
 - **Tech Stack:** Java, Angular 9, Spring Core Framework, MySQL, Cassandra, Jenkins, Docker, Git, JUnit, Postman, Kubernetes

Technical Skills

- **Programming Languages:** Java, C/C++, Typescript, Python, HTML5, CSS
- **Cloud Technologies:** AWS: EC2, ECS, S3, Lambda, CloudFormation, CloudWatch, ElastiCache, IAM
- **Libraries/Frameworks:** Angular 9, Spring Framework, JUnit, Mockito
- **Tools:** Git, Jenkins CI, SQL, MySQL, Cassandra, REST, Agile, Scrum, Jira
- **DevOps:** Kubernetes, Docker, Microservices, Linux, ,MacOS

Academic Achievements

- Secured a rank in the **top 1%** in **IIT-JEE(Advanced)** '15 among 150,000 students.
- Secured a rank in the **top 0.1%** in **IIT-JEE(Mains)** '15 among 1.4 million candidates.

Positions of Responsibility

- **Core Team Member, Techniche (Technical festival of IITG)** 2015-17
 - Organized different events of the festival such as Lecture Series and coding event.
 - Volunteered in Guwahati Half Marathon, conducted by **Techniche** with 15k+ participants.
- **Technothon Organizer, IITG** 2015-17
 - Organized the first part (prelims) in hundred different cities with an average of 400+ students in each city.
 - Managed the mains event of technothon at IITG with top 50 wining participating teams.
